Content

TECHNOLOGY ORGANIC AND INORGANIC SUBSTANCES

- 6 Design of chemically modified bacteriorhodopsin films for information protection systems
Ivan Trikur, Zita Batori-Tartsi, Mykhailo Sichka, Galina Rizak, Vasyl Rizak
- 15 Development of rational technology for sodium glyceroxide obtaining
Mykola Korchak, Olga Bliznjuk, Serhii Nekrasov, Tatiana Gavrish, Olena Petrova, Natalia Shevchuk, Liudmyla Strikha, Oleg Kostyrkin, Evgeny Semenov, Dmytro Saveliev
- 22 Application of paper mill sludge and additional chemical substances in the production of container cardboard
Vita Halysh, Inna Trus, Iaroslav Radovenchik, Tetyana Shabliy, Anna Ivanchenko, Alina Nikolaichuk, Nikolai Gomelya
- 30 Effect of layered double hydroxides Ca-Al LDHs and polycarboxylate ether on the hardening of portland limestone cement
Tetiana Kropyvnytska, Myroslav Sanytsky, Andriy Kaminsky, Orest Vakhula
- 41 Unraveling the study of liquid smoke from Rice Husks as a green corrosion inhibitor in mild steel under 1 M HCl
Agus Kaban, Wahyu Mayangsari, Mochammad Anwar, Ahmad Maksum, Taufik Adityawarman, Johny Soedarsono, Aga Ridhova, Rini Riastuti
- 54 Using the hybrid composites as coating layers to inhibit the chemical corrosion in oil mineral reservoirs
Hameed Noor
- 60 Abstract and References
